

CONNETWORK Program

ACVP's **CONNETWORK PROGRAM** is a way for all members to not only outline challenges and inquiries, but also for members to highlight their own areas of expertise and interest and receive the recognition necessary to advance them in this competitive healthcare environment.

If you have a challenge or simply inquiry, the **Connetwork Program** allows you to place your question or situation in the Connetwork Databank. Your inquiry will be sent to all of the members interested in serving as Connexpeerts to help provide answers and overcome challenges!

If you want to gain recognition for your expertise and experience in specialty area, you can participate as a **Connexpert** for the **Connetwork Program**. You will have a chance to meet new people and work with your peers and colleagues on interesting and challenging situations while building your own reputation as a leader in your profession.

Take part today in the **ACVP Connetwork Program** — there is no cost to you as a member of ACVP.
